Despite the title of the book focusing in on elementary and middle school mathematics, this is a great book for all mathematics educators from Kindergarten through Grade 12. Had I better understood how big ideas in mathematics develop from a young age into the high school grades, I could have been a much better high school math teacher.

Math 5| 3,0,0,0 - Teaching Textbooks
Good! The book itself: great curriculum for a self learner. This Math 5 is for a 4th-5th grader. If your child has addition, subtractions, multiplication of single and double digits, decimals, near or already mastered you may find that you will get into harder math by lesson 50 or after.

Math 5 A Teaching Textbook
The Math 5 (3.0) works a little differently than the 2.0. The academic content is the same as always and includes over 100 hours of multimedia instruction! However, each course is now delivered online as a 12-month subscription (per student). This obviously means no more discs (and, importantly, no more need for expensive disc replacements).
