While over 1 million titles are available, only about half of them are free.

Radioactivity and Balancing Nuclear Reactions: Balancing ...

Power By definition, power is the rate at which work is done. Take the derivative of the work-time graph to get the power-time graph. Weightlifting is an exceptionally powerful sport. This athlete had an average power of 390 W and a maximum power of 1900 W (approximately $\frac{1}{2}$ and $2\frac{1}{2}$ horsepower, respectively).
